

Useful flood links:

Check for flooded areas - <https://www.wiltshire.gov.uk/civil-emergencies-flooding>

To report highways flooding - <https://www.wiltshire.gov.uk/mywilts-online-reporting>
You will need to set up an account - perhaps do this in advance as you can report many items to WCC this way.

Use the same link to report internal flooding. The team at WCC will provide assistance if they can. They advise taking photos if safe to do so. You can email these to drainage@wiltshire.gov.uk. Provide information about number of properties flooded, approx depths, and flow path.

DO NOT ENTER FLOOD WATER.

If you are out whilst there are localised areas of flooding, tell others where you are going and take a mobile phone.
Call 999 in an emergency.
